Sample Author**ABSTRACT**

An annotated translation of selected verses from Bhartṛhari's Vākyapadīya concerning the relationship between language and cognition, with notes on edition, variant readings and the translator's interpretive choices.

Introduction

An annotated translation of selected verses from Bhartṛhari's Vākyapadīya concerning the relationship between language and cognition, with notes on edition, variant readings and the translator's interpretive choices.

This is sample content prepared to demonstrate the journal platform. The published version would continue with the full argument, its evidence and its apparatus.

Method

Sources are cited by edition, chapter and verse where a primary text carries the argument. Where a translation is the author's own, it is marked as such.

Discussion

Claims about a tradition are distinguished from the author's inference, and modern scientific or social claims are supported by contemporary evidence rather than asserted.
